加拿大在最北部, 在它的南部是美国. 墨西哥在美国的南部.

Complete the passage with the correct forms of the words in the box

large live square Spain speak common

There are three major countries in North America. They cover about 24 million square kilometres. Both in America and Canada, English is the common language, while in Mexico, people speak mostly Spanish. In the U.S., over 2 million people speak Chinese. The population of America is much larger than that of Canada. Some Mexican people leave their country to live and work in America.

Task1

Introduce one of the three countries in North America

Task2

Introduce other countries in North America you like

Asia

Asia is the largest continent in area and population. It covers more than 44 million square kilometres. There are more than forty countries in Asia. Some of them are China, India and Japan. China is the biggest country in area and population.

More than three billion people live in Asia. That's more than half of the world's population! Mount Qomolangma (or Mount Everest) is in the Himalayas. It is the highest mountain in the world. The Yangtze River (the Changjiang River) in China is the third-longest river in the world.

1. Which is the biggest country in Asia?
2. How many people live in Asia?
3. What is the highest mountain?

Homework

Write a report about the continent of the world interests you.

- Name the continent's main cities. What countries are these cities in?
