

第 6 单元

11~20各数的认识

第 2 课时 11 ~ 20 各数的写法

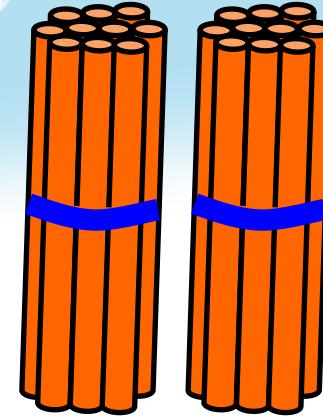

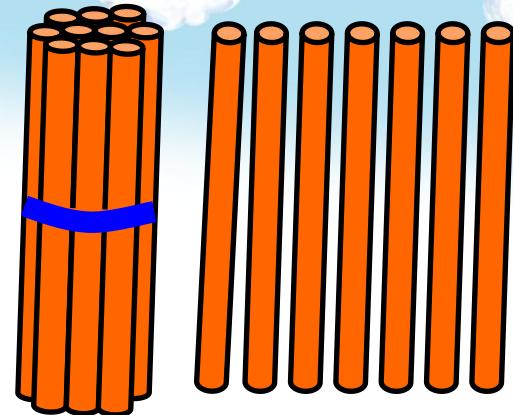

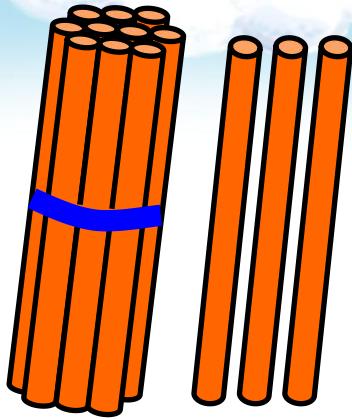

十位	个位
1	1

它的名字叫
计数器。

从右边起第一位是个位，第二位是十位。有1个十在十位写1，有2个十在十位写2。有几个一在个位写几。

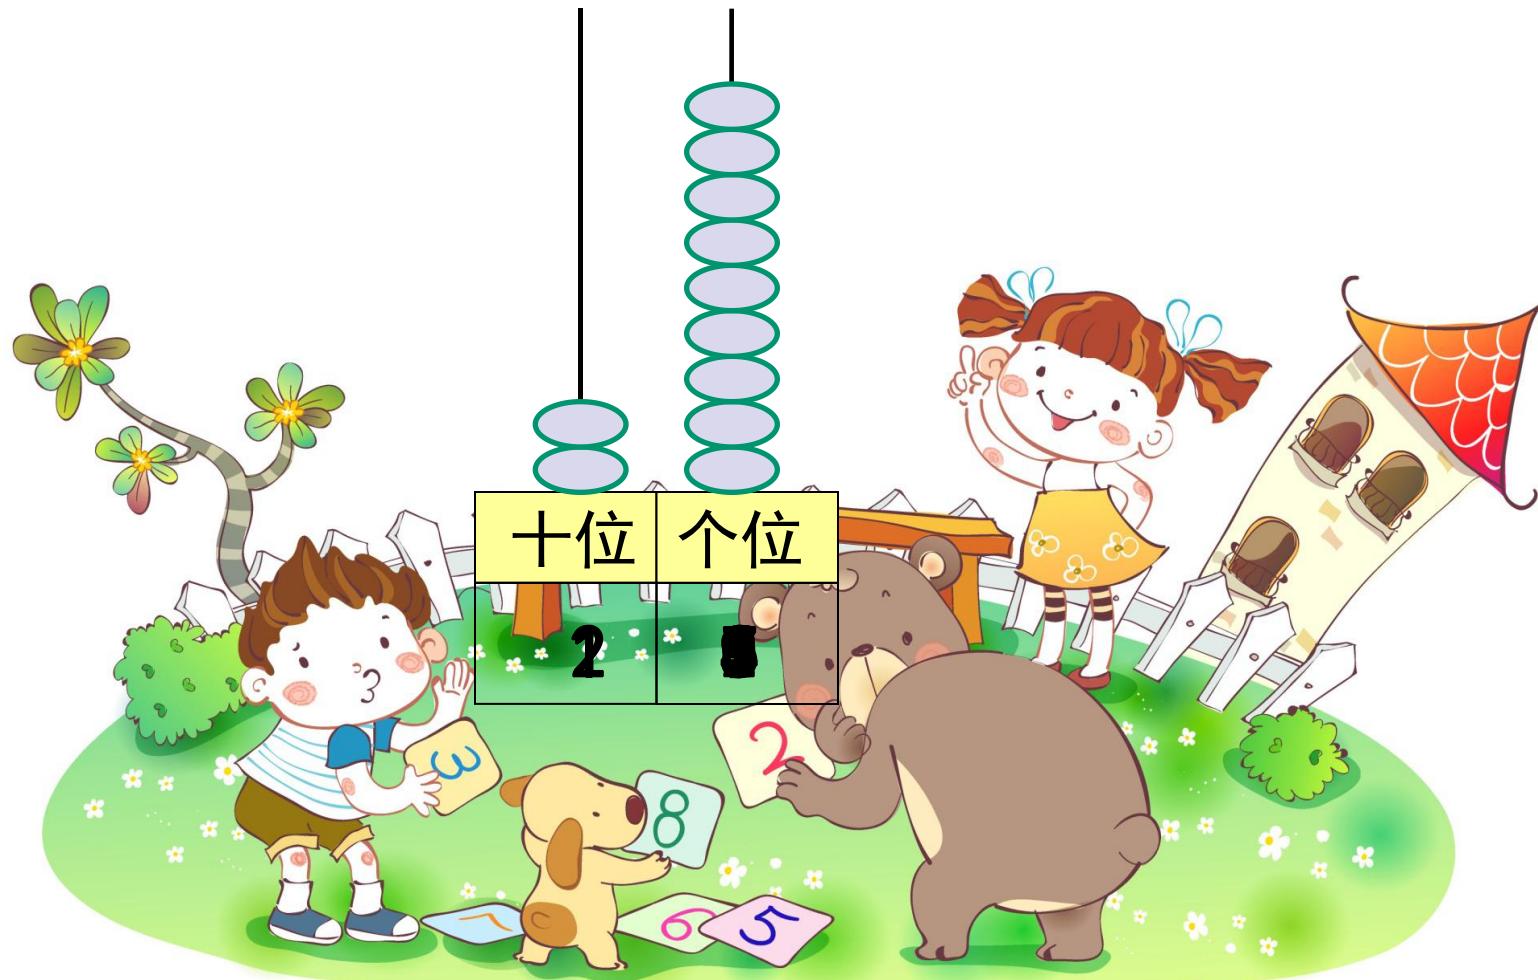

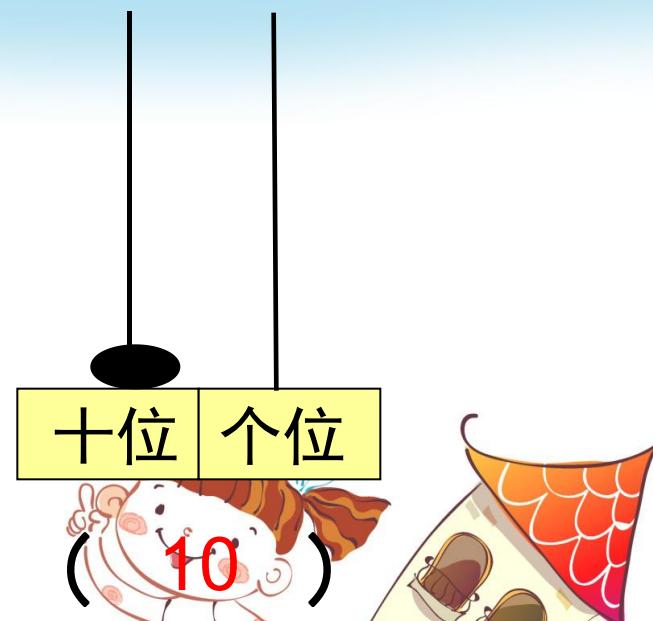

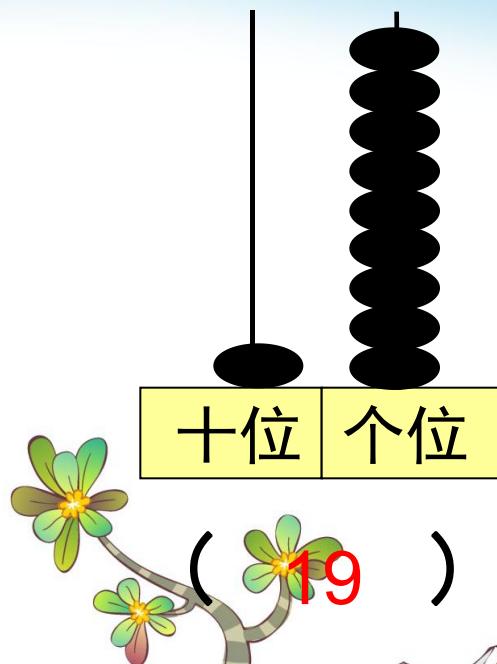

A colorful illustration featuring a boy, a dog, a bear, and a girl playing with abacuses and number cards. The boy is holding a card with the number 3. The dog is holding cards with the numbers 8, 6, and 5. The bear is holding cards with the numbers 1 and 27. The girl is smiling and holding a card with the number 0. There are three abacuses shown, each with two columns labeled '十位' (Tens) and '个位' (Ones). The first abacus has 1 black bead in the tens column and 3 black beads in the ones column. The second abacus has 1 black bead in the tens column and 27 black beads in the ones column. The third abacus has 2 black beads in the tens column and 0 black beads in the ones column.

十位		个位	
1	3	1	27
2	0		

读写出下面各数。

十位 个位

(16)

十位 个位

十位上是1，个位上
是6，这个数是几？

这个数是16，读做：
十六。小朋友你答对
了吗！
