VII. 完形填空(共 10 小题, 每小题 1 分, 计 10 分)

Every school has rules for students to follow. However, some students may see the ___41___ as a way which teachers control them. Sometimes, they're unhappy and even feel ___42___. Well, if you think your life is hard, you might think about the ___43___ in ancient times. For some of them, life was really hard.

In the old days, people believed that teachers had to be very ___44___ and had the right to punish the students. Parents didn't mind if teachers punished their children when their children didn't do what they were ___45___ to do. Often, the stricter a teacher was, the more parents thought he or she was a good teacher.

In fact, following school rules can be very important. For example, running in the hallways could cause a student to ___46___. It may hurt himself or another person. Following the rules can also help the students in the classroom to learn ___47___ difficulty. In class, a teacher may ask students to raise their hands ___48___ they speak. If someone speaks out of turn, other students might not be able to hear the teacher ___49___. School rules can help students prepare for their own futures as well. When they ___50___ and go out on their own, they'll soon find that they still need to follow rules.

Rules make the world much better. If there are no rules, life will be meaningless and in disorder.

VIII. 阅读理解(共 15 小题, 每小题 2 分, 计 30 分)

A

10-year-old Mike is being interviewed on TV about his own cooking.

Mike, when did you start cooking?

When I was four, I became interested in cooking. I started helping my mum in the kitchen when I was five. At the age of six, I could make vegetable salad. One year later, I could make a fruit pie all by myself.

What's the best way to get good at cooking?

I don't go to cooking classes. Sometimes I watch videos on the phone. I often read books about cooking. Actually, I think the best way to improve my cooking is trying it again and again. If it is not good, I'll do it differently next time.

What do your parents think of your cooking?

They're glad that they don't have to make dinner every day, and they enjoy my cooking ---usually! But, you can't make everyone happy all the time.

Finally, what's it like being on TV?

It's interesting. In fact, I really enjoy myself making the shows. They're watched by millions, but I still find it strange when people I don't know say hello to me in the street.

51. When could Mike make a fruit pie all by himself?

- A. At the age of four. B. At the age of five. C. At the age of six. D. At the age of seven.

52. What does Mike think is the best way to improve his cooking?

- A. To learn by practicing. B. To read books about cooking.
C. To go to cooking classes. D. To watch videos on the phone.

53. Why does Mike say "you can't make everyone happy all the time"?

- A. His parents don't like him to make shows. B. His parents don't always like his cooking.
C. His parents make him cook meals for everyone. D. His parents find it strange that he's interviewed.

B

Mary was in bed, feeling sleepy. She read the first few words of her book, “The dodo(渡渡鸟) was a bird that couldn’t fly ...”, and soon she fell fast asleep.

Whoosh! The window flew wide open. Mary sat up, and through the window she saw a dodo, an unusual dodo, right there in her yard!

“I lived over four hundred years ago,” the dodo said. “But then terrible things happened. People cut down the forests, so we had nothing to eat. We all died.” The dodo felt sad.

Suddenly, a mammoth(猛犸) rushed in. It said, “I’ve been looking for you, Dodo! I lived thousands of years ago, but not now.” It added, “Scientists think the weather changed, changing the environment where we lived. We ate grass, but as the weather grew warmer, forests spread and there was less grass to eat.”

Seconds later, an elephant bird came. It said proudly, “I’m the heaviest bird that’s ever lived. I weigh half a ton. But we lived on earth over a thousand years ago.”

The animals all looked sad. Before they had time to say another word, a tiger came in. “My friends,” said, showing its big teeth. “I hear what you are talking about. We tigers are lucky. Now there are some special places for us animals who are in danger. We are safe and no one can hurt us there.

“Sounds great!” thought Mary. “Animals should have more of this kind of places!”

The window blew shut, and Mary woke up with a start. There was no one and nothing to see, except the book in her hand.

54. Which of the animals lived thousands of years ago?

- A. Dodos. B. Elephant birds. C. Tigers. D. Mammoths.

55. Why are tigers lucky?

- A. They have big teeth. B. They live in safe places.
C. The environment changed. D. The weather grew warmer.

56. Which question could best help us find out the writer’s purpose?

- A. Did the writer want us to have fun? B. Did the writer want us to raise animals?
C. Did the writer want us to protect dodos? D. Did the writer want to learn something?

Each of us has dreams and goals for our future. What makes us study and make progress each day is closely connected with our personal dream and goal.

But why do you have dreams and goals, you still end up with nothing? What separates successful people from the dreamers is their persistent (锲而不舍的) action. When you learn your lessons in school, you must work hard and not give up. You will often find some of your lessons very hard. Try and keep trying, and you'll be sure to successfully deal with any difficulty you meet with. If we have a hard lesson today, let us try our best to learn it well and then we shall be prepared for a harder one tomorrow.

This is the famous formula(公式) for success:

Dream > Believe > Achieve

Most people have what they want (Dream) and think they can realize their dreams (Believe). And then they do nothing. They just imagine their dreams can come true. When they get tired waiting and lose a lot, they get bored. They say angrily how terrible their life is.

I personally believe that if you really want to achieve your dreams and goals in life, you have to add one thing to your success formula:

Dream > Believe > Act > Achieve

For me, act is the most important thing for success and that's to Take Persistent Action (Act). If you say, "I can't do it" and give up, you can never do anything valuable. However, "I'll try" creates wonders. Let's remember that there will be **obstacles** in our life. We must face them bravely and solve them. Success is not something that

falls down from the sky. Most successful people made their dreams come true because of their persistent action.

Please remember: Action is the bridge that connects our dreams and goals to reality.

61. What should you do when you find your lessons very hard?

- A. Ask people for help. B. Try and keep trying.
C. Get ready to create wonders. D. Prepare for a harder one.

62. Which does the writer add to the famous formula?

- A. Act. B. Achieve. C. Connect. D. Create.

63. What does the underlined word “obstacles” mean?

- A. Dangers. B. Imaginations. C. Wonders. D. Difficulties.

64. Why does the writer use the formula “Dream > Believe > Act > Achieve”?

- A. To support his idea. B. To ask readers to explain it.
C. To show what his goals are. D. To compare it with a bridge.

65 Which of the following can be the best title for the passage?

- A. Doing Something Valuable B Studying Hard and Making Progress
C. Realizing Dreams with Persistent Action D. Separating Successful People from Dreams

IX.任务型阅读(共 5 小题，每小题 2 分，计 10 分)

What will the world of tomorrow look like? Many people today believe that technology is going to help solve some of the most difficult problems we have on Earth today. New technology may solve old problems, and it may also create new ones. No technology is perfect. Each has advantages and disadvantages, as these three examples.

When we dream about the future, many of us think that we will be able to fly to the skies in our own personal flying car. We could fly at 480 km per hour, avoiding traffic lights and busy roads. However, if the cars become popular, there will be problems with traffic control.

3D printing is another new technology for the future. 3D printers are already used to make life-size models of car parts, and man-made body parts, such as ears. As we move into the future, 3D printing will change the way we make things and the way we treat sick people. The disadvantage is that such a machine is very expensive.

Finally, people are trying to build a robot suit (套装). This is an electronic suit. It allows people to lift heavy objects and walk a long way. It might help people walk again after an illness or an accident. However, one disadvantage at the moment is cost.

Looking ahead, it is easy to imagine a future. We will be able to fly to work, print out a new pair of shoes or lift a car above our heads. Although there are some problems to solve before all of this is possible, we can certainly dream of a world. **In this world, technology makes people's life easier and safer.** It can solve some of the most difficult problems we have today.
